## ABOUT THIS COLLECTION

Anji Collection  
Designed by Eric Brand

The Anji Collection was conceived to respect the beauty of bamboo when refined to its most delicate intention, while recognizing its obvious strength. Combined with precision metal work, sumptuous walnut and iridescent profiles in glass, we aim to captivate you with silhouettes that fuse the materials.

Let us help you realize your design in  
woven bamboo

#### ABOUT THIS MATERIAL

While there are no general size limitations, specific weave size and material thickness will be determined based upon design concept and final product configuration. Design away and our team will assist with any necessary technical adjustments.

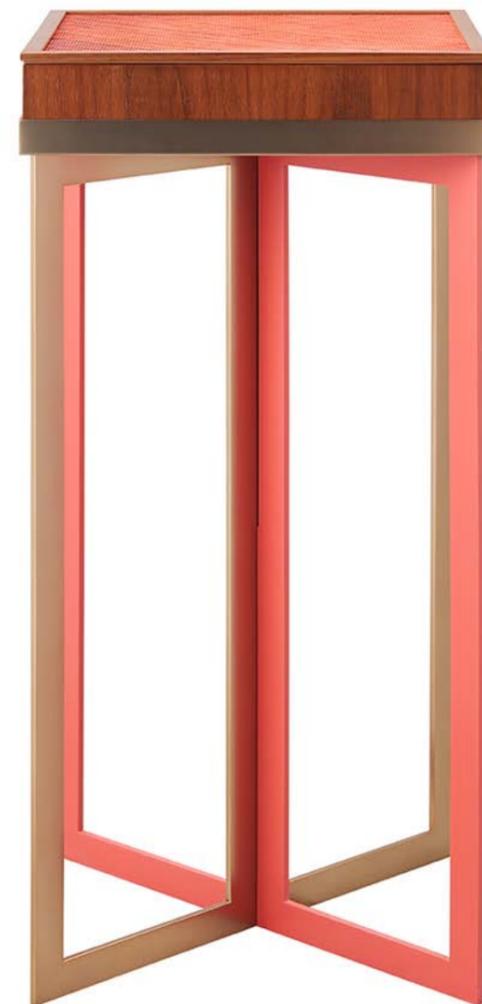

Any quadrilateral shape such as a square or rectangle is achievable, while round and oval shapes are NOT achievable. Triangular shapes are not possible at this time.

Most Pantone and RAL colors can be accomplished, match samples can be provided for review. Given that the raw material is not always the same color, a 90% color match is standard.

Custom patterns are welcome.
